Lab Report 05 Task

Dear Students,

In **Lab Report 04**, you were assigned the task of creating a database table for a bookstore named ***Read & Relax*** to manage their inventory digitally. This table included details about books, such as their unique **ID, title, author, genre, price,** and **stock level**.

For this lab **report 05**, you are required to complete the following additional tasks:

1. Add a new column to the database table named `book_image`.
2. Implement functionality to allow users to upload book images.
3. Add an option to display the uploaded book images.
